

inosine kinase

Cat. No. EXWM-3103

Lot. No. (See product label)

Introduction

Description This enzyme belongs to the family of transferases, specifically those transferring phosphorus-containing groups (phosphotransferases) with an alcohol group as acceptor. The systematic name of this enzyme class is ATP:inosine 5'-phosphotransferase. Other names in common use include inosine-guanosine kinase, and inosine kinase (phosphorylating). This enzyme participates in purine metabolism.

Synonyms inosine-guanosine kinase; inosine kinase (phosphorylating)

Product Information

Form Liquid or lyophilized powder

EC Number EC 2.7.1.73

CAS No. 37237-46-0

Reaction $\text{ATP} + \text{inosine} = \text{ADP} + \text{IMP}$

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
