

plasminogen activator Pla

Cat. No. EXWM-4285

Lot. No. (See product label)

Introduction

Description In peptidase family A26. From the bacterium Yersinia pestis that causes plague.

Product Information

Form Liquid or lyophilized powder

EC Number EC 3.4.23.48

CAS No. 101028-08-4

Reaction Converts human Glu-plasminogen to plasmin by cleaving the Arg560+Val peptide bond that is also hydrolysed by the mammalian u-plasminogen activator and t-plasminogen activator. Also cleaves arginyl bonds in other proteins

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
