

## mitochondrial intermediate peptidase

Cat. No. EXWM-4341

Lot. No. (See product label)

### Introduction

**Description** A homologue of thimet oligopeptidase. Natural substrates are precursor proteins that have already been processed by mitochondrial processing peptidase. In peptidase family M3 (thimet oligopeptidase family)

**Synonyms** mitochondrial intermediate precursor-processing proteinase; MIP

### Product Information

**Form** Liquid or lyophilized powder

**EC Number** EC 3.4.24.59

**CAS No.** 136447-30-8

**Reaction** Release of an N-terminal octapeptide as second stage of processing of some proteins imported into the mitochondrion

**Notes** This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

**Storage** Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
