

choriolsin L

Cat. No. EXWM-4349

Lot. No. (See product label)

Introduction

Description Known from the teleost fish *Oryzias latipes* (medaka). Efficient dissolution of the egg membrane requires concerted action with choriolsin H. A 24 kDa peptidase family M12 (astacin family)

Synonyms teleost hatching enzyme (component); low choriolytic enzyme (LCE)

Product Information

Form Liquid or lyophilized powder

EC Number EC 3.4.24.66

CAS No. 177529-15-6

Reaction Hydrolysis of the inner layer of fish egg envelope. Also hydrolysis of casein and small molecule substrates such as succinyl-Leu-Leu-Val-Tyr-7-(4-methyl)coumarylamide

Notes This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

Storage and Shipping Information

Storage Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
