

## holocytochrome-c synthase

Cat. No. EXWM-5319

Lot. No. (See product label)

### Introduction

**Description** In the reverse direction, the enzyme catalyses the attachment of heme to two cysteine residues in the protein, forming thioether links.

**Synonyms** cytochrome c heme-lyase; holocytochrome c synthetase; holocytochrome-c apocytochrome-c-lyase

### Product Information

**Form** Liquid or lyophilized powder

**EC Number** EC 4.4.1.17

**CAS No.** 75139-03-6

**Reaction** holocytochrome c = apocytochrome c + heme

**Notes** This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

**Storage** Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
