

## aconitate $\Delta$ -isomerase

Cat. No. EXWM-5504

Lot. No. (See product label)

### Introduction

**Description** cis-Aconitate is used to designate the isomer (Z)-prop-1-ene-1,2,3-tricarboxylate. This isomerization could take place either in a direct cis-trans interconversion or by an allylic rearrangement; the enzyme has been shown to catalyse the latter change.

**Synonyms** aconitate isomerase

### Product Information

**Form** Liquid or lyophilized powder

**EC Number** EC 5.3.3.7

**CAS No.** 37318-48-2

**Reaction** trans-aconitate = cis-aconitate

**Notes** This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.

### Storage and Shipping Information

**Storage** Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.
