

## Human SULT1A2

Cat. No. NATZ-018

Lot. No. (See product label)

### Introduction

**Description** Non-CYPs play an important role in the metabolism of many drugs. Non-CYP enzymes including carboxylesterase (CES), aldehyde oxidase (AO), monoamine oxidase (MAO), flavin monooxygenase (FMO), alcohol/aldehyde dehydrogenase (ADH/ALDH), xanthine oxidase (XO), UDP glucuronosyl transferases (UGT) and sulfotransferases (SULTs).

### Product Information

<b>Species</b>	Human
<b>Source</b>	Escherichia coli
<b>Form</b>	Liquid
<b>Concentration</b>	10 mg/ml

### Storage and Shipping Information

**Storage** - 80°C
