

## Human UGT1A1

Cat. No. NATZ-025

Lot. No. (See product label)

### Introduction

**Description** Non-CYPs play an important role in the metabolism of many drugs. Non-CYP enzymes including carboxylesterase (CES), aldehyde oxidase (AO), monoamine oxidase (MAO), flavin monooxygenase (FMO), alcohol/aldehyde dehydrogenase (ADH/ALDH), xanthine oxidase (XO), UDP glucuronosyl transferases (UGT) and sulfotransferases (SULTs).

### Product Information

**Species** Human

**Source** Sf9

**Form** Liquid

**EC Number** EC 2.4.1.17

**Concentration** 5 mg/ml

### Storage and Shipping Information

**Storage** - 80°C
