

Vitamin E microcapsule powder

Cat. No. EXTZ-475

Lot. No. (See product label)

Introduction

Description Vitamin E microcapsule powder is a kind of powder made from mixed tocopherol by special microencapsulation technology. Microencapsulation technology includes emulsification, embedding reinforcement, microencapsulation, and spray drying and other processes. Microencapsulation technology has well improved the stability and water solubility of oil products, and greatly promoted the application of oil products in food, health care products, dairy products and beverages.
