

Sheep Placenta Peptide

Cat. No. CEFP-007

Lot. No. (See product label)

Introduction

Description The product is made from sheep placenta as raw material and extracted natural small molecule peptide by bio-enzymatic technology, which has extremely strong biological activity and can promote cell metabolism and play a cosmetic and anti-aging effect. The components of sheep placenta peptide, such as immunoglobulin, cell growth factor and various enzymes, have the effect of anti-cellular lipid peroxidation, promote body metabolism, cell division promotion, anti-inflammatory and anti-allergic. The active oxygen in sheep placenta peptide and lipid peroxide produced by unsaturated fatty acids can make human cells aging, placenta peptide has a highly effective removal of this effect.

Product Information

Source	Sheep Placenta
Appearance	Off-white powder
Molecular Weight	<1000 Da
Purity	99%
Solubility	Water-soluble

Usage and Packaging

Package 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

Storage and Shipping Information

Storage Store in a cool, ventilated and dry place, avoid direct sunlight.
