

Oyster Peptide

Cat. No. CEFP-013

Lot. No. (See product label)

Introduction

Description Oyster peptide is derived from protein which comes from oyster meat by directional restriction enzyme small peptides separation technology. Oyster peptide has abundance of protein, vitamin, moderate of microelement and taurine. Besides, it contains multiple nutrition which is specially owned by oceans. The taurine can lower blood fat, inhibit the aggregation of platelet, improve hyperlycaemia, enhance human immunity and increase the metabolism. By this, the taurine is widely applied in medical products. So, oyster peptide is showing a great effect on preventing arteriosclerosis, coronary disease, coronary disease, angina, hyperlipemia, arrhythmia, diabetes mellitus, chronic hepatitis, hypo immunity.

Product Information

Source	Oyster
Appearance	Off-white powder
Molecular Weight	<1000 Da
Purity	99%
Solubility	Water-soluble

Usage and Packaging

Package 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

Storage and Shipping Information

Storage Store in a cool, ventilated and dry place, avoid direct sunlight.
