

Biotinylated-Recombinant Human Thrombin

Cat. No. RHTB-001

Lot. No. (See product label)

Introduction

Description This Thrombin protease, biotin-tagged enables on-column cleavage of fusion proteins with a thrombin cleavage site.

Product Information

Species Human

Source HEK 293

Form Supplied in an aqueous buffer of pH 6.0, with 50% (v/v) glycerol.

EC Number EC 3.4.21.5

CAS No. 9002-04-4

Purity Greater than 90% as determined by SDS-PAGE.

Activity ≥ 5000 units/mL

Unit Definition 1 unit is the amount of enzyme required to cleave 1 nmole of peptide in 1 min in room temp., pH 8.0.

Storage and Shipping Information

Storage Freezer -20°C
