

Lactiplantibacillus plantarum hcs03-001

Cat. No. PRBT-115

Lot. No. (See product label)

Introduction

Description Lactiplantibacillus plantarum hcs03-001 is a strain isolated from the intestinal tract of healthy infants. This bacterium can effectively reduce the adhesion ability of Helicobacter pylori in AGS cells, thereby interfering with Helicobacter pylori colonization. Clinical data shows that Lactiplantibacillus plantarum hcs03-001 can reduce the Hp load in the stomach, significantly improve the gastric discomfort symptoms of patients infected with Helicobacter pylori, improve the eradication rate and therapeutic effect of Helicobacter pylori, and reduce the side effects of treatment.

Applications Anti Helicobacter pylori

Product Information

Form powder

Activity 100 billion CFU/g or more

Storage and Shipping Information

Storage Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
