

## Acetylhexapeptide-8

Cat. No. CECP-004

Lot. No. (See product label)

### Introduction

**Description** The anti-wrinkle peptide is a bionic peptide that makes the bionic degree of SNAP-25 protein more accurate through target design and scientific simulation, and inhibits the formation of SNARE complex with more excellent effect. At the same time, Acetylhexapeptide-8 can improve the skin aging condition, promote the production of lipids, and restore the skin's firmness, elasticity and luster.

**Applications** It is suitable to be added to medical beauty, instant wrinkle removal and other anti-aging maintenance products.

### Product Information

**Appearance** Clarified clear liquid

**Form** Liquid

**CAS No.** 616204-22-9

**pH Stability** 5.5-7.5

### Usage and Packaging

**Package** 1kg/bottle

### Storage and Shipping Information

**Storage** Keep sealed, shaded and cool.
