

## Active Ferulic acid Liposome

Cat. No. EXTZ-616

Lot. No. (See product label)

### Introduction

**Description** Ferulic acid is an organic acid isolated from the plant Ferula. It lasts longer in the bloodstream compared to L-ascorbic acid and is considered an ultimate antioxidant warrior. Ferulic acid is a fat-soluble antioxidant with multiple benefits, including scavenging free radicals, preventing thrombosis, exhibiting antibacterial and anti-inflammatory effects, inhibiting tumors, preventing hypertension and heart disease, and enhancing sperm vitality. Active Ferulic Acid Liposome is an active liposome developed using a nano delivery system, offering advantages such as good solubility, stability, high bioavailability, and ease of use.

### Product Information

**Form** Powder or liquid
