

Bivalirudin

Cat. No. CEPP-014

Lot. No. (See product label)

Introduction

Description Bivalirudin is a synthetic direct thrombin inhibitor used primarily as an anticoagulant. It is commonly used

during procedures such as percutaneous coronary interventions (PCI), where blood clots can form due to mechanical interventions in the cardiovascular system. It works by binding directly to thrombin,

preventing the conversion of fibrinogen to fibrin, a key step in clot formation.

Product Information

Appearance White or off-white powder

CAS No. 128270-60-0

Molecular C98H138N24O33

Formula

Molecular 2180.29 g/mol

Weight

Usage and Packaging

Package 1G/Bottle, 10G/Bottle,50G/Bottle or at customers reqirement.

Storage and Shipping Information

Storage 2~8°C

Tel: 1-631-562-8517 1-516-512-3133 **Email:** info@creative-enzymes.com
