

## Lenalidomide (Revlimid)

Cat. No. CEI-0176

Lot. No. (See product label)

### Introduction

**Description** Lenalidomide (Revlimid, CC-5013) can inhibit TNF-alpha secretion with IC50 of 13 nM.

**Synonyms** CC-5013

### Product Information

**CAS No.** 191732-72-6

**Molecular Formula** C13H13N3O3

**Chemical Name** 3-(4-amino-1-oxoisindolin-2-yl)piperidine-2,6-dione

**Molecular Weight** 259.26

**Purity** >99%

**Targets** TNF-alpha

**Solubility** DMSO 52 mg/mL Water

### Storage and Shipping Information

**Storage** 2 years at -20 centigrade
