

Adefovir Dipivoxil(Preveon, Hepsera)

Cat. No. CEI-0249

Lot. No. (See product label)

Introduction

Description Adefovir Dipivoxil(Preveon, Hepsera) works by blocking reverse transcriptase, an enzyme that is crucial for the hepatitis B virus (HBV) to reproduce in the body.

Synonyms Bis-POM PMEA, Preveon, Hepsera

Product Information

CAS No. 142340-99-6

Molecular Formula C₂₀H₃₂N₅O₈P

Molecular Weight 501.47

Purity >99%

Targets hepatitis B virus

Solubility DMSO 100 mg/mL, Water

Storage and Shipping Information

Storage 2 years at -20 centigrade
