

## FK 3311

Cat. No. CEI-1338

Lot. No. (See product label)

### Introduction

**Description** FK 3311 is a selective inhibitor of cyclooxygenase (COX)-2.

**Synonyms** FK-3311; FK3311

### Product Information

**CAS No.** 116686-15-8

**Molecular Formula** C<sub>15</sub>H<sub>13</sub>F<sub>2</sub>NO<sub>4</sub>S

**Chemical Name** N-[4-acetyl-2-(2,4-difluorophenoxy)phenyl]methanesulfonamide

**Molecular Weight** 341.33

**Purity** 0.98

**Targets** COX-2

**Solubility** Soluble in DMSO > 10 mM

### Storage and Shipping Information

**Storage** Store at -20°C

**Shipping Conditions** Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
