

HIV-1 integrase inhibitor

Cat. No. CEI-1361

Lot. No. (See product label)

Introduction

Description HIV-1 integrase inhibitor is an inhibitor of HIV-1 integrase used for anti-HIV.

Product Information

CAS No. 544467-07-4

Molecular Formula C₁₁H₉N₃O₄

Chemical Name (Z)-4-[3-(azidomethyl)phenyl]-4-hydroxy-2-oxobut-3-enoic acid

Molecular Weight 247.21

Purity 0.98

Targets HIV

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
