

## 5-Bromo-3-indoxyl phosphate, p-toluidine salt

Cat. No. CSUB-0704

Lot. No. (See product label)

### Introduction

**Description** Employed as a substrate for alkaline phosphatase, producing a blue colored precipitate when cleaved.

**Applications** A chromogenic substrate for alkaline phosphatase

### Product Information

**Form** Solid

**CAS No.** 80008-69-1

**Molecular Formula** C<sub>8</sub>H<sub>7</sub>BrNO<sub>4</sub>P·C<sub>7</sub>H<sub>9</sub>N

**Molecular Weight** 399.18

### Storage and Shipping Information

**Storage** Store at -20° C
