

5-Bromo-4-chloro-3-indolyl α -D-galactopyranoside

Cat. No. CSUB-0707

Lot. No. (See product label)

Introduction

Description 5-Bromo-4-chloro-3-indolyl α -D-galactopyranoside is a chromogenic substrate which can be used to demonstrate α -Galactosidase activity.

Applications A chromogenic substrate

Synonyms X- α -Gal

Product Information

Form Solid

CAS No. 107021-38-5

Molecular Formula C₁₄H₁₅BrClNO₆

Molecular Weight 408.63

Solubility Clear, colorless and complete

Storage and Shipping Information

Storage Store at -20° C
