

## 6-Chloro-3-indoxyl-N-acetyl- $\beta$ -D-galactosaminide

Cat. No. CSUB-0719

Lot. No. (See product label)

### Introduction

**Description** 6-Chloro-3-indoxyl-N-acetyl- $\beta$ -D-galactosaminide is a chromogenic substrate for N-Acetyl- $\beta$ -D-galactosaminidase producing a salmon-colored precipitate.

**Applications** A chromogenic substrate

### Product Information

**Form** Solid

**CAS No.** 501432-61-7

**Molecular Formula** C<sub>16</sub>H<sub>19</sub>ClN<sub>2</sub>O<sub>6</sub>

**Molecular Weight** 370.79

**Substrates** Galactocerebrosidase

### Storage and Shipping Information

**Storage** Desiccate at -20° C
