

Naphthol AS-BI-phosphate, disodium salt

Cat. No. CSUB-0890

Lot. No. (See product label)

Introduction

Description Naphthol AS-BI-phosphate disodium salt is the substrate for the histochemical verification of acid phosphatase (ACP) and alkaline phosphatase.

Applications A substrate for the histochemical verification of ACP and alkaline phosphatase

Synonyms 7-Bromo-N-(2-methoxyphenyl)-3-(phosphonoxy)-2-naphthalenecarboxamide Disodium Salt; 7-Bromo-3-hydroxy-2-naphth-o-anisidide Phosphate Disodium Salt

Product Information

Form	Solid
CAS No.	530-79-0
Molecular Formula	C ₁₈ H ₁₃ BrNO ₆ P•2Na
Molecular Weight	496.16
Purity	>99%
Solubility	Soluble in 50 mg/ml water
Substrates	Esterase

Storage and Shipping Information

Storage Store at -20° C
